Professional Summary:

I am a proactive Computer Science Engineering graduate from Anna University, with a strong background in technology and innovation. I thrive in creating impactful solutions and have a passion for delivering high-quality results. My excellent problem-solving abilities and eagerness to contribute make me a great fit for entry-level roles.

Projects:

W3Schools (Frontend) Jul 2023 - Jul 2023

Built using HTML, CSS, Bootstrap, and JavaScript for a modern and user-friendly web experience.

Trendy (Full-stack) Aug 2023 - Aug 2023

Developed a full stack website using HTML, CSS, Bootstrap, JavaScript, Django, Python, MySQL.

Test Portal (Full-stack) Sep 2023 - Oct 2023

Created a test portal for students to attend exams with mic, camera, and speaker permissions.

Helper Bot (Full-stack) Jan 2024 - Feb 2024

Developed a query-answer bot with intuitive hover effects, adjusting gracefully to different screen sizes.

Key Strengths:

- Strong analytical and problem-solving skills
 - Adaptability in learning new technologies
 - Collaboration and teamwork experience
 - Attention to detail in writing clean code
 - Effective time management and multitasking
-
